Harare, Zimbabwe

Building. Supplying. Supporting progress.

Atlantic Holdings brings construction, plant hire, material supply and hardware together under one roof — so your project keeps moving without chasing four different suppliers.

About Atlantic Holdings

One point of contact, from foundations to fittings

Atlantic Holdings (Private) Limited is a Zimbabwean company registered under the Companies and Other Business Entities Act [Chapter 24:31]. We were built around a simple idea: construction projects move faster when the people building them can also source their equipment, materials and hardware from one trusted supplier.

From our office at Hamilton Heights, corner Mazowe and Fife Avenue, Harare, we support contractors, developers and individual clients across the full construction value chain.

Company details

Entity name	Atlantic Holdings (Pvt) Ltd
Registration no.	95071A0242026
Incorporated	25 Aug 2022
Status	Registered
Location	Harare, Zimbabwe

What we do

Four services, one supplier

Each line stands on its own, and works even better together when a project needs more than one at a time.

Construction

General building and civil works — site management, project documentation, tendering and contract execution for residential, commercial and institutional projects.

Equipment Hire

Plant and equipment hire for contractors and clients undertaking earthworks and civil works — without the capital cost of owning machinery outright.

Material Supply

Sourcing and supply of bulk construction materials — aggregates, cement, steel and related building materials — delivered on time to site.

Hardware

General hardware and building supplies for contractors, tradespeople and individual clients — from fixings to finishing materials.

Why work with us

Built for how projects actually run

Fewer suppliers to manage, and a team that understands site realities, not just order forms.

One point of contact

Construction, plant hire, materials and hardware, coordinated by one team instead of four.

Locally registered

A compliant Zimbabwean entity, registered with the Companies and Intellectual Property Office.

Hands-on experience

Site management and project documentation experience behind every contract we take on.

Responsive supply

A supply chain built to keep materials and equipment moving, so your site doesn't stand idle.

Get in touch

Tell us what your project needs

Whether it's a full build, a short-term equipment hire, or a materials order, reach out and we'll respond with what we can offer.
